Chairman, GSDL, Delhi

DST SPONSORED FREE 21 DAYS LEVEL -2 GEOSPATIAL CAPACITY BUILDING PROGRAM IN DEVELOPING GEOSPATIAL SOLUTIONS FOR DEFENCE, SECURITY AND INTELLIGENCE

Dear Sir

1. I am elated to inform you that Multidisciplinary Centre for Geo-informatics (MCG), Delhi Technological University (DTU) is conducting a DST (Department of Science and Technology), GOI sponsored free 21 days Geospatial Capacity building program in 'Developing Geospatial Solutions for Defense, Security and Intelligence' for working professionals, scientists, academia and school teachers from 27 May 24 to 19 June 24.
2. The Multidisciplinary Centre for Geo-informatics was established in 2019 and has been running a Ph.D program and an AICTE accredited M.Tech program in Geoinformatics since its inception. Now, it also proposes to commence a few NEP based M.Sc programs in Geospatial Science.
3. National Geospatial Programme (NGP) of the Department of Science and Technology, Government of India has been steering the capacity building in Geospatial Science and Technologies and has conducted more than 200 programs over the years. Level-1, Level-2 and Geoinnovation challenge programs are at the Centre of this effort. These programs are being conducted by various Institutes of repute engaged in Geospatial education. ***One of the Level-2 program in the field of 'Developing Geospatial Solutions for Defense, Security and Intelligence' is proposed to be conducted by Multidisciplinary Centre for Geo-informatics, Delhi Technological University for working professionals, scientists, academia and school teachers from 27 May 24 to 19 June 24.***
4. In this connection, kindly find enclosed the brochure which gives the details of the Level-2 program and the other details about the Multidisciplinary Centre for Geo-informatics. The salient details of this Level-2 program is ***that it is Free, duration is 21 days, limited TA/DA and accommodation shall be provided to the outstation candidates. The program is open to all the Defense and security personnel, working professionals (both Govt & industry), faculty members, scientists, school teachers and researchers with sound experience in handling tools of geospatial technologies.***
5. It is requested to kindly circulate the brochure in GSDL and nominate a few experienced Officers/Staff/ Researchers to apply in accordance with the details given in the brochure. Interested candidates should fill the online application form through the web link available on <http://dst-iget.in> For any queries and clarifications, they may contact me directly at Email – kcchtpd@gmail.com or Mob – 9971862304 or at the contacts given in the brochure.
